3YY_{3-WAY DIVERTER VALVE}

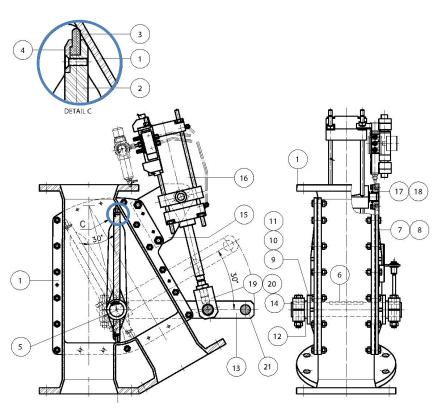

The 3VY model valve has 3 ways for use in material and bulk handling applications. The flow penetrates in the valve through its entrance and it gets out alternately for one of the two branch lines. The desired combination is obtained by pneumatic actuation.

Product description:

- 3 ways diverter valve
- Size range of DN 50-350 (larger sizes on request)
- Working pressure: up to 3 bar
- Standard flange connection: EN 1092 PN 16 and ASME B16.5 (class 150). Others available on request
- Manual (lever) and pneumatic actuator (double acting, single-acting upon request)

- The valve can be mounted in vertical or horizontal pipeline but the shaft always must be installed on horizontal position
- Various diversion angle with a smooth pass-through design
- Standard EPDM seal, also available in other materials (NBR, FKM-FPM, VMQ, ...)
- Robust design which provide faithful service with a minimum of setup or maintenance intervention required

STANDARD PARTS LIST										
	Part:	Materials:								
1	Body	AISI 316								
2	Distributor	AISI 316								
3	Seal	EPDM								
4	Seal support	AISI 316								
5	Shaft	AISI 316								
6	Key	AISI 316
